SHEFF NOTES

Mr. Sheff Goes to Washington!

Recently, Doug Sheff, chair of the Federal Legislation Committee of the Massachusetts Academy of Trial Attorneys, led a group to our nation's capital to meet with the Massachusetts Congressional Delegation. As he has done for several years, Doug and his fellow MATA members met with our representatives in an effort to advocate for the interests of victims of serious injury and death due to others' negligence. Doug and the entire MATA delegation were well received by our elected leaders.

Doug with Rep. William Delahunt, and attorneys Milne, Winter, Tarricone, and Halström

Doug with Sen. Scott Brown, as well as attorneys Milne and Halström

Sheff Law in the News: Protecting Children

According to recent reports, one out of every four children in the United States has been a victim of bullying. Although some people dismiss bullying as a normal part of growing up, the phenomenon places our children at serious risk for injury or worse. Currently, progress is being made through anti-bullying legislation (recently passed in Massachusetts), but legislation alone cannot solve this complex problem.

Sheff Law Offices has been fighting for the rights of children who are the victims of injury for years. You may have seen recent news reports regarding a major bullying case which Attorney Don Grady of Sheff Law Offices is handling. It involves a child who was the target of repeated bullying at his elementary school. The bullying reached its climax when the child, after being pushed down a flight of stairs, was left paralyzed. Sheff Law Offices is dedicated to obtaining justice for the unfortunate child in this case, as well as other victims like him.
