SHEFF NOTES

Spring is on the way!

Sheff Law: Trailblazers in workplace safety.

Sheff Law Offices is proud to announce that Doug Sheff has been named Chairperson of the Workplace Safety Task Force. The Task Force is a “first in the nation” cooperative enterprise including representatives from Massachusetts OSHA, The Department of Public Health, academia, medicine, national worker advocacy groups, unions, the judiciary, attorneys, occupational health experts, legislators and insurers, all working to achieve one common goal: improving workplace safety and decreasing injuries and deaths to employees. The Task Force is currently helping to spearhead an effort to enact legislation which will ensure greater rights and protections for everyday workers.

***Doug Sheff appointed Chairman
of Workplace Safety Task Force***

Recent Sheff Law victories for injured workers.

In December 2010, one of Sheff Law Offices trial attorneys, Adam Becker, was awarded one of the highest verdicts of the year. The case involved several workers who were injured on a jobsite. The jury awarded our clients \$1,200,000.00 and \$675,000.00, respectively. With interest, the entire verdict totaled over \$2,500,000.00 million dollars. Prior to trial, the highest offer extended on this case was barely into six figures.

Earlier last year, Doug, along with attorneys Steve Chiasson and Donald Grady, successfully settled another case involving a worker who was injured when he fell 20 feet, leaving him partially paralyzed. The case was settled for \$5,000,000.00.
